- Post Landing support in country of study
- Educational Loan counselling and assistance

Note: Total process will be facilitated through WhatsApp, Email and Video Calls

TESTIMONIALS

*Rohit Jammu,
University of Illinois,
Urbana Champaign*

The U.S undergraduate admission process is, like everyone knows, very lengthy and complicated. My mentor has been a great source of constant support and guidance throughout the process. She really helped me break it down to make it look simpler and more achievable than I had originally conceived. She encouraged me to plan and organize everything which is an integral part of the process. Aside from that Future Edu was a huge help, because it's really easy to talk to them and clarify your doubts. The internship I got was a direct result of their efforts. My mentor identified my weaknesses, my strengths, and preferences and used them to help me choose the best college for me. I honestly, could not have done this without my mentor and am eternally grateful.

*Vivin Gavas,
University of Washington,
Seattle*

My mentor helped me in clearly defining my post-MBA goals and helping me identify the schools that are the best to achieve my goal. But it takes a lot of research to find the University that fits you. Once we identified my choices, I worked closely with my mentor where she helped me understand how to project my strengths in my essays and make it customized for each school. I now have 2 admits with great scholarships from leading B-schools in the world - thanks to the relentless support of team Future Edu. Even after the admit, Future Edu helped me on preparing for my Visa interview. They gave clear advice on how to document my financials. This experience has helped me acquire the key skills to succeed in my academic career. Thanks to Future Edu for the support.

*Prabhav Kamojhala
NYU Stern School of
Business*

One thing that definitely stood out to me was Future Edu's focus on the student as a real person rather than just an application. From the get go it was very clear that they emphasized providing me with support that was very much tailored to my needs rather than just helping me using some standardized operating procedure that would never be deviated from, and especially in cases where most counsellors who have well over 50 students to cater to, that tailor made approach is what definitely what sets them apart from the crowd. I think it goes without saying that my mentor's guidance throughout this process was unparalleled and helped me get into my dream school! Her dedication to helping me display the best of what I had to offer truly meant the world to me.
